

# BURGESS PIGMENT COMPANY

February 8, 2022

To Whom It May Concern:

Burgess Pigment Company affirms that all products manufactured and sold are made from 100% natural mineral materials and do not contain animal, insect or plant components, or by-products made from animal, insect or plant sources. We further affirm that Burgess Pigment Company does not conduct or commission animal testing on any of its products and does not require animal testing on any ingredient used to manufacture its products.

Certain packaging options offered by Burgess Pigment Company use paper that is made with plant and mineral components.
