To Whom It May Concern:

We confirm that Burgess products that are natural or calcined products are exempt, but treated are mixtures with corresponding treatments registered. Products are 100% Kaolin Clay [CAS No 1332-58-7] or Calcined Kaolin [CAS No 92704-41-1].

Regarding the UK-REACH registration, and other similar registrations such as European Union's REACH, South Korea's K-REACH, India's ICMSR, and the EAEU's Eurasia-REACH, this product is considered a natural mineral that has been processed mechanically, not chemically changed, meeting a category exemption like that found in Annex V paragraph 7 of the UK regulation.
